Risk Benefit Assessment for Large Loose Parts

Benefits:	Improve strength. Physical development Fresh air Friendship and relationships Being creative Time to explore Engineering, STEM.
Risks:	Injury from falls & trips. Injury from being hit by large parts. Injury from falling parts. Cuts/grazes from sharp parts.
Risk Management:	When carrying parts: **If it's bigger than you, it takes 2!** Towers to be a maximum of shoulder height. Objects are not to be thrown. Don't carry items above your head. Do not swing items around. Respectful play – no pushing or snatching. Report any broken pieces to an adult. Don't stand or climb on towers.
Good play	Build towers. Make stepping stones / balancing course. The floor is lava. **Everyone help tidy away.**
Conclusion:	You can all play with the large loose parts! The benefits outweigh the risk.
