Risk Benefit Assessment for The Sandpit

Benefits:	Brain development Physical development Fresh air Friendship and relationships Being creative, time to explore
Risks:	Could get sand in your eyes / ears / mouths. Could get hit by a sand toy. Could trip in a hole.
Risk Management:	Be aware of the surface around you. Keep hands to yourselves. Children to keep sand in the sandpit or on the toys – don't throw sand. Toys to be played with safely – no throwing of toys. Everyone help to tidy away the toys. All to be reminded about not putting sand in mouth.
Good play:	Build castles. Build tunnels. Play with toys. Cooperate with children around you. Share the toys. Be creative.
Conclusion:	You can all play in the sandpit! *The benefits outweigh the risks.*
